

New Products

The new **Brandt 820XR** offers the same great product you've come to expect from Brandt, just in

a smaller package. The 1122DXR and 1522 DXR offer larger capacities with a Dual-Auger system that moves more grain. **Booth 3500**

The **Fair Mfg. 7825** – TD bale processor features an offset rotor design with a conveyor chain to

rotate the bale. It is equipped with a top discharge spout that rotates 300 degrees, allowing the operator to cast material on both sides up to 100'. It also features a draper between the rotor and auger, virtually eliminating plugging issues. **Booth 1400**

LAFORGE® Guided Hitch Adapters are now available for many strip-till equipment brands. **Booth 4012**

Ag Dryer Service

Mineral Matron. It's a mobile cattle mineral feeder set up with fly/insect control. **Booth 1701**

Standard swing arm tail sections have limited travel up and down (roughly 4"), which often isn't enough when planting through ditches and over terraces. The new 4 Link Closer from **Schaffert Mfg.** offers nearly double the travel (up to 7"). The 4 Link Closer fits John Deere, Kinze, Case IH, Great Plains and White planters. **Booth 803**

Micro Trak 3RIVE 3D™ integrates formulation

science, application technology and active ingredients to efficiently cover more ground in

less time with fewer refills – saving water, fuel, labor and time. Plant up to 500 acres a day

using Capture® insecticide. No manual containers to handle and transport and no high water volume and

weight on the planter. **Booth 823**

Bomgaars/DeWalt The world's first battery that automatically changes voltage when you change tools. Step up to the battery with our fastest growing 20 volt Max Cordless System and our most advanced 60V and 120V Max Brushless tools. **Booth 2523**

Seed Slide from **Bulk Seed Systems** fits Buckhorn Bulk Seed Boxes. Works with both individual and bulk planters, attaches

in seconds, automatically locks onto box and removes easily with the push of a lever.

Booth 1631

New standard features for Pacesetter/Commander grain trailers have led to

the introduction of the **Wilson Trailer DWH-600 Series**. Features include recessed stop/turn lights in the rear header, an ergonomically designed rear ladder and new model signage. Also available are polished stainless steel side skins, in addition to the white, black and pewter metallic color choices. **Booth 2450**
